Balloon Envelope Banners

Banners constructed for attachment to balloons shall be made of material similar to that used in the constructions of hot air balloons. These materials should be in the range of 1.1- to 2.3- oz. per yard in weight. All materials used must have a flame retardant finish. Please contact your pilot for the preferred method of attachment to the balloon envelope (Velcro, grommets, pins, etc.).

Family Sponsors are entitled to fly one or two 2 x 3 ft. basket banner with a flame retardant finish. Please work with your pilot to discuss exact dimensions and forms of attachment.

Corporate Sponsors are entitled to fly one 15 x 21 ft. banner, on the envelope of the balloon. Please work with your pilot to discuss exact dimensions and forms of attachment.

Silver Sponsors are entitled to fly a 15 x 21 ft. banner on the envelope of the balloon with a flame retardant finish. Please work with your pilot to discuss exact dimensions and forms of attachment. Other banners to be considered by silver sponsors are those hung at the venue.

Major Sponsors are entitled to fly a 15 x 21 ft. banner on the envelope of the balloon with a flame retardant finish. Other banners to be considered by major sponsors are those hung at the venue. Please work with your pilot to discuss exact dimensions and forms of attachment.

Thanks to our sponsors, The Great Reno Balloon Race is free to our community and its visitors.
